

IncludED

Who are LGfL?

LGfL are a charity whose mission is the advancement of education.

Our priorities are saving schools money, keeping children safe,

tackling inequality, energising teaching and learning and promoting wellbeing.

Our ambition is for UK schools to lead the world in digital innovation, enabling children of all backgrounds and abilities to achieve more whilst schools spend less.

How do LGfL support inclusion?

The IncludED Service at LGfL leads LGfL's commitment to supporting Inclusion and Mental Health and Well being.

We focus on helping schools in the following key areas:

- Supporting those with Special Educational Needs or Disability (SEND)
- Supporting those who have English as an Additional Language (EAL)
- Promoting wellbeing and supporting positive mental health within the school community
- Promoting inclusive everyday approaches to removing barriers to learning

Our support to schools comes in four broad areas:

1. Offering high quality training
2. Providing learning resources which support inclusion for all
3. Advising schools on how technology can help support effective and inclusive everyday Teaching and Learning
4. Building a strong community of schools, charities, and others to share best practice and promote inclusion in the education sector.
